VIA MESSENGER SERVICE

Mr. Henry T. Kelly Kelly, Drye and Warren 333 West Wacker Drive Chicago, Illinois 60606

Re: Charles Larson & Sons, Inc. v. Peoples Gas, ICC 03-0195

Dear Mr. Kelly:

Enclosed is Peoples Gas' response to your First Request for Production of Documents related to the above-entitled matter. The information or documents are organized in groups corresponding to your requests.

Response to Interrogatory #1:

Brian McCarthy Wilson Mantilla John McKendry Dennis Long Thomas Cosgrove Kay Staley

Response to Interrogatory #2.

Peoples Gas relies on equipment to measure the gas that was billed to Complainant. The account at 4221 W. Diversey has been active since 1947. To list all of the equipment since that time (even if Peoples Gas had the records) would be overly burdensome and not likely to lead to relevant information. The following is the list of the gas measurement equipment that has been at the premises at all times relevant in the complaint. The gas meter that has been present at the premises since 7/9/1992 is meter number P1686424. It is a Dresser W8 23M125 Aluminum rotary meter serial number 00007811114 which was fitted with a base volume index (BVI) identified as device number 2233. In addition, the BVI instrument was fitted with a Daily Demand Device (DDEV Type B) referred to as a Metretek. Although it is not used to measure the gas used, the Metretek device phoned-in daily meter readings.

Response to Interrogatory #3.

On approximately, 8/1/01 the Metretek device at the Diversey address began to phone in the same corrected gas reading each day. Such activity can result from a non-registering meter or BVI or can result from a malfunctioning Metretek device. On or about November 10, 2001, a Peoples Gas technician went to the premises and determined that Metretek device was malfunctioning and that the meter and BVI were registering gas usage. The technician corrected the Metretek unit and synchronized it with the current meter and BVI readings. He also indicated that the readings were in 1000 cubic foot increments (MCF) rather than 100 cubic foot increments (CCF).

In December of 2001, Peoples Gas determined that the system was billing Complainant in CCF rather than MCF and that a rebilling would need to be performed. It also had to issue a bill correcting for the fact that the Metretek device malfunctioned between August 1 and approximately November 10, 2001.

In late December 2001 or early January of 2002, Dennis Long made a phone call to Glenn Larson to inform him of a rebilling of the Diversey account to make up for underbilling from August 1, 2001 to 11/30/01. Dennis stated that he was making the phone call in anticipation of questions from Complainant regarding the billing. The parties arranged a meeting for January 17, 2002.

On January 17, 2002, Dennis Long met with Glenn Larson, Keith Zawrazky, Scott Larson, and Dion Smith of First Energy. Dennis Long explained the reason for the rebilling of the Diversey account. He explained that the bill was much higher than prior usage because Peoples Gas had been billing in for usage in CCF rather then in MCF. The parties discussed the mechanics of the rebilling.

Subsequent to the January 17, 2002 meeting, Glenn Larson contacted Dennis Long and requested a written statement from Peoples Gas that the rebilling would not go back prior to August 1, 2001. Dennis Long said he would get back to Glenn with Peoples Gas' response.

Prior to April 16, 2002, Dennis Long informed Dion Smith of First Energy that Peoples Gas would be rebilling Complainant for periods prior to August, 2001. Dennis received a phone call from Glenn Larson setting-up a meeting For April 16, 2002 to discuss the rebilling of Complainant's account for a period prior to August 2001.

On April 16, 2002, Mike Revello and Dennis Long of Peoples Gas met with Glenn Larson, Keith Zawrazky, Scott Larson and Dion Smith of First Energy. At that meeting Peoples Gas explained that it would be rebilling Complainant back to January of 2000, that the additional consumption would be 847,000 Meter Reading Differences (in CCF) (MRD) and the approximate amount of the bill. Peoples Gas was informed that First

Mr. Henry T Kelly July 11, 2003 Page 3 of 5

Energy would no longer be Complainant's gas marketer for Complainant. Glenn Larson requested the additional cost of the distribution charges for the rebilling. Glenn Larson stated that he had the impression from prior meetings that Peoples Gas would not rebill Complainant for periods prior to August 2001.

Subsequent to the meeting, Dennis Long told Glenn Larson the additional distribution charges would be approximately \$32,000.

Approximately May 24, 2002, Dennis Long received a letter from Complainant's attorney.

On June 24, 2002 Dennis Long called Glenn Larson to discuss the status of the rebilling discussions. Glenn Larson had not reviewed the document Dennis had provided that set forth the distribution charges related to the rebilling. Dennis Long reminded Glenn that the estimated distribution charges did not include the gas commodity costs. Glenn stated that he would get back to Dennis Long.

After June 24, 2002 but before December 27, 2002, Dennis Long had a conversation with Glenn Larson in which Glenn Larson informed Dennis that the Complainant would not pay a rebilling for service prior to August 1, 2001 because he was under the impression that the rebilling would not go back before August 1, 2001.

On or about December 27, 2002, Mike Revello and Dennis Long met with Glenn Larson and informed him that Peoples Gas rebilling from January 2000 to August 2001 would be \$543,697.00.

Response to Interrogatory #4.

Officers of a level of Assistant Vice President or higher in authority have the actual authority to represent Peoples Gas in resolving the underbilling issue raised in this case due to the dollar amount involved and the fact that the resolution of dispute is a matter of making a settlement contract.

Apparent authority is a question for determination by the fact-finder and Peoples Gas' opinion regarding apparent authority is not an appropriate matter for discovery.

Response to Interrogatory #5.

This request asks for speculation about events that did not occur and is, therefore, not likely to lead to information that is relevant.

Response to Interrogatory #6.

None. Peoples Gas did not make any offer to resolve the dispute. Peoples Gas only made efforts to explain its billing of the Complainant's account on Diversey.

Response to Request #1 to Produce.

Peoples interprets "bill submitted" to mean the bill(s) in dispute. See the documents attached as Response to Request #1 to Produce.

Response to Request #2 to Produce.

Name:

Dennis Long

Hired:

November 2, 1980

Title:

Sr. Account Executive

Duties:

Liason with major industrial customers regarding billing and gas service

(pressure and volume) issues. Helps customer determine its rate classification, helps customer estimate consumption and generally

promotes gas usage.

To the extent that his request seeks more information than is provided above, Peoples Gas objects to this request on the grounds that it is unlikely to lead to relevant evidence.

Response to Request #3 to Produce.

Peoples Gas objects to this request on the grounds that it is vague and overly burdensome. However, see the documents attached as Response to Request #3 to Produce which is comprised of responsive documents that are relevant to the complaint. Investigation continues.

Response to Request #4 to Produce.

See the documents attached as Response to Request #4 to Produce. Investigation continues.

Response to Request #5 to Produce.

See the documents attached as Response to Request #5 to Produce. At least one communication between an employee and an attorney for Peoples Gas is withheld pursuant to attorney-client privilege or as attorney work product. Investigation continues.

Response to Request #6 to Produce.

This request is duplicative of request #3. See the Response to Request #3 to Produce.

Mr. Henry T Kelly July 11, 2003 Page 5 of 5

Response to Request #7 to Produce.

See the documents attached as Response to Request #7 to Produce. Investigation continues.

Sincerely,

Brian J. McCarthy

VERIFICATION

I, Wison first duly sworn upon oath, depose and say that I have read the above and foregoing response to Complainant's First Request for Production of Documents by me subscribed and know the contents thereof and that said contents are complete in accordance with the request, subject to the objections and limitations listed therein.

SUBSCRIBED and SWORN to before

Mark:

Dennis and I had a conference call with Wilson today regarding this rebill.

We agree that the customer owes us for the past 24 months of incorrect billing and we further agree that the amounts are \$31,923 in distribution charges and 870,000 therms of gas.

Dennis will meet with the customer on 12/13 and determine whether the customer will buy the gas from PGL or an outside broker. Once this is determined, we will render a bill to the customer.

Thanks, Leon J. Dorsey Sales 773.395.3547 Idorsey@pecorp.com Nextel 13547

Dennis;

I have figured out the adjustment for the Larson account

The billing adjustment computed as oulined below should be \$38,881.10.

This would be added to his bill as an additional amount owed.

I am attaching the Excel file as documentation.

RE: Lost Registration, Charles Larson, 4221 W. Diversey Ave., Acct. # 4 5000 0422 2438

Dennis, I have a number of questions:

- 1. You say GTS will correct "billing" from Jan. 2000 through July 2001 but not rebill the customer. It sounds like GTS will correct the "consumption" in C-first to show consumption in MCF and leave the "billing history" in C-first alone. Is this correct? Yes. GTS says the rebilling would be very time consuming to do.
- 2. Is any correction being done to consumption or billing before Jan. 2000? No we are only going back to when we started billing on Cfirst which began with the 01-00 bill.
- 3. It sounds like you are asking us to calculate an amount equal to charges on Rate 3 (based on corrected consumption) from Jan. 2000 to April 2002 "minus" the payments made on Rate 2 for service Jan. 2000 to April 2002. Is this correct? Yes
- 4. Do you except the amount calculated above to be credit (i.e. negative)? I expect it to be positive for 01-00 through 07-01 since we are calculating Rate 3 charges for a consumption that is 10 times the consumption for which the Rate 2 charges were originally calculated and billed and eventually paid by the customer. (Example Rate 3 charges calculated for 45,000 therms monthly consumption versus Rate 2 charges calculated for 4,500 therms monthly consumption). I expect it to be negative for 08-01 through 04-02 since we are calculating Rate 3 charges on the same amount of consumption.
- 5. Are all of Larson's accounts suppose to be recalculated on Rate 3 or only the account that had the incorrect consumption? No only the account that had the incorrect consumption.

Subject:

RE: Lost Registration, Charles Larson, 4221 W. Diversey Ave., Acct. # 4 5000 0422 2438

John.

GTS plans to correct billing from 01-00 through 07-01 to reflect a constant of 10 for the meter being read in MCF instead of CCF as originally billed.

From 01-00 on this customer would have qualified for Rate 3 as a result.

Instead of rebilling the customer on Rate 3, GTS would apply a credit toward the account.

The credit would be the total of the monthly savings on Rate 3 for the period 01-00 through 04-02 plus payments the customer made for bills paid while on Rate 2 during that period.

Please calculate the total savings on Rate 3 for the above period.

Rate 3 contracts were recently signed by this customer, which would have been in effect on 05-01-02 regardless of the above circumstances.

They are based on a billing demand of 2,790 therms which should be used in determining the savings on Rate 3 for the above period.

John.

Please see the below e-mail. Mark DiValerio would like to see what the annual costs would have been on Rate 3 for the this customer for the period from 07-09-92 through 12-01. This customer is currently on Rate 2 and would have qualified for Rate 3 if we had billed him correctly from 07-09-92 onward.

Lost Registration, Charles Larson, 4221 W. Diversey Ave., Acct. # 4 5000 0422

2438

According to Meter Shop tickets provided by Jim Scalone, Meter # 1686424, 23M125, supplying the above account, was set on 07-09-92 with a BVI instrument, read in MCF, which was set at an index reading of 0000000 on that date. Billing from that date through 07-01 has been based in error on the BVI instrument being read in CCF instead of MCF, therefore resulting in an underbilling of actual consumption during that period. The index reading on 07-31-01 reported by the Metretek device for billing purposes

was 0456895. Based on the above information the above customer has been underbilled on the above account from 07-09-92 through 07-31-01 for 4,112,055 MRD calculated as follows: 4,112,055 = (0456895 - 0000000)X(10 - 1).

I need you to follow up on this issue.

The customer has not been rebilled for 2 years where the constant was 1 instead of 10. The rebill is likely to be messy and the customer may have switched suppliers in that period. The gas was used and we need to recover it.

Resolution of this issue will need negotiations with the customer and/or current supplier. This issue needs to be resolved immediately.

Rebilling: Charles Larson, 4221 W. Diversey Ave., Acct. # 4 5000 0422 2438

Wilson,

After speaking with Mark DiValerio I understand that we will be rebilling the above customer back to 01-00 because of the underbilling by a factor of 10 since the BVI instrument is read in MCF. As a result of the correction in consumption, this customer will qualify for Rate 3 now. I prepared a Rate 3 versus Rate 2 analysis which shows savings on Rate 3 which I presented to them and their broker/supplier, First Energy, on 01-17-02 when I met with them to explain the rebilling back to 08-01 to correct for the factor of 10. I recommend that we rebill them back to 01-00 on Rate 3 since they would qualify for Rate 3.

Lost Registration Adjustment: Charles E. Larson & Sons, Inc., 4221 W. Diversey Ave., Acct. # 4

5000 0422 2438

John,

As a result of underbilling from 01-00 to 07-01 due to the BVI instrument being in error in CCF instead of MCF, an additional 869,440 therms are to be purchased by the above customer from Exelon Energy Services, their current broker/supplier and is calculated as follows:

869,560 Therms = (0456895 (Index reading On 07-31-01) - 0362726 (Index Reading On 12-31-99)) X (10 -1) X 1.026 Therm/MRD (Average BTU Factor Between 12-31-99 And 07-31-01)

Where

1.026 = (966,039 Therms)/(941,690 MRD) Between 12-31-99 And 07-31-01

Note: As a result of round off of the BTU factor to 1.026, the above number increased from 869,440 therms to 869,560 therms. Please call me with any questions.

5000 0422 2438

John,

Please see the below e-mail. Mark DiValerio would like to see what the annual costs would have been on Rate 3 for the this customer for the period from 07-09-92 through 12-01. This customer is currently on Rate 2 and would have qualified for Rate 3 if we had billed him correctly from 07-09-92 onward.

Thanks Dennis Long From:

Long, Dennis

0422 2438

According to Meter Shop tickets provided by Jim Scalone, Meter # 1686424, 23M125, supplying the above account, was set on 07-09-92 with a BVI instrument, read in MCF, which was set at an index reading of 0000000 on that date. Billing from that date through 07-01 has been based in error on the BVI instrument being read in CCF instead of MCF, therefore resulting in an underbilling of actual consumption during that period. The index reading on 07-31-01 reported by the Metretek device for billing purposes was 0456895. Based on the above information the above customer has been underbilled on the above account from 07-09-92 through 07-31-01 for 4,112,055 MRD calculated as follows: 4,112,055 = (0456895 - 0000000)X(10 - 1).
